Essence of Morocco

The Hammam is the crown jewel of Moroccan wellbeing tradition. A millenary heritage that celebrates the art of bathing, self-care, and purification. In a restful cocoon made of cream marble, the body and the mind are enveloped by the regenerative power of ancestral hair care rituals, modelling ceremonies and body wrap treatments, to create the ultimate relaxation interlude. Our hammam – a compound of three rooms, with different temperature and purposes – offers a unique journey designed to release toxins, stress, and anxiety.

THE ROYAL MANSOUR SIGNATURE HAMMAM

The Royal Mansour Signature Hammam is an authentic experience of Morocco's traditional ritual, combined with a modern approach to care striving for perfection. Discover iconic Moroccan regions' unique natural resources through our three personalised body wrap treatments, a first step to your wellness journey.

STEP INTO THE ATLAS

Dynamic. An energising body wrap treatment performed using ghassoul, natural clay from the Atlas Mountains, lavender and tulsi – also known as sacred basil.

STEP INTO TALIOUINE

Indulgent. A radiant body wrap treatment with saffron, the red gold peculiar of Taliouine region in the south of Morocco, orange blossom and argan.

STEP INTO KALAAT M'GOUNA

Relaxing. A revitalising body wrap treatment with argan powder and rose water from the Kalaat M'Gouna, the rose valley east of Ouarzazate.

LE HAMMAM

BY
MAROCMAROC

HAMMAM “ÉVASION”

Purifying. The hammam experience involves a delicate scrub performed with a kessa glove and the luscious exfoliator “Miel d’Ambre”, finished by a calming Moroccan orange blossom soaping treatment “Infusion d’Orange”.

HAMMAM “TEMPS POUR SOI”

Relaxing. The benefits of the «Évasion» hammam experience with the addition of a soothing «Amande au Lait» shampoo and a 20-minute long moisturising performed with the «Roses de Sucre» cream for women and «Onguent d’Argan» balm for men.

HAMMAM “LUMIÈRE SUR LE CORPS”

Regenerating. The ultimate hammam experience: the traditional ritual followed by a ceremonial massage using marocMaroc must-try products. The peak of a fully relaxing experience for the body and the mind.

Massages

CEREMONIAL MASSAGE

BY MAROCMAROC

Generous. Inspired by Moroccan beauty rituals, this sophisticated massage allows the body to shed all its tensions. An aromatic journey carried out using the smooth and nourishing "Onguent d'Argan".

RELAXING MASSAGE

BY SISLEY

Intuitive. The original Californian massage, relaxing and regenerating, elevated by Sisley's nurturing products. Throughout the treatment, the tensions are released thanks to a bespoke massage tailored to the client's needs - for a truly multi-sensorial experience.

BLISSFUL MARMA MASSAGE

BY SUBTLE ENERGIES

Soothing. Blissful Marma massage combines sweeping, smooth, and firm movements with different techniques focused on multiple vital energy centres to balance emotions, eliminate stress, and reduce anxiety. The 90-minute treatment also includes an aromatherapeutic Marma face massage.

HOT STONES MASSAGE

Relaxing. A technique inherited from ancestral Hawaiian traditions, this massage uses Basalte's hot stones from rare volcanic rocks, and delicate aromatic oils. Through hot stones strategically placed on the sensitive spots and masterfully kneaded over the skin, this massage results in the immediate relaxation of the body and the mind.

TRADITIONAL THAI MASSAGE

Stimulating. «Nuad Bo Rarn» is the traditional Thai massage, performed for thousands of years fully clothed on a futon. Stretching, pressure, and vibration techniques are combined to gently stimulate the energy points to awaken one's vitality and gain harmony.

DEEP TISSUE MASSAGE

Powerful. The Deep Tissue massage is a high-intensity treatment. Targeted manual pressures are performed to soften the tissues and muscles, alleviate tensions, and treat chronic pain.

MUM TO BE MASSAGE

Revitalising. A gentle and relaxing massage for mums to be, from the second trimester onwards, performed with natural products to release tension and discomfort.

BACK MASSAGE

Loosening. A personalised massage created to eradicate the tension concentrated in the upper body and the back, for renewed flexibility, comfort, and tranquillity.

A woman and a child are floating in a pool, receiving a water massage. The woman is in the foreground, and the child is behind her. They are both wearing dark swimwear. The water is clear and blue, with sunlight reflecting off the surface. The woman's hair is tied up in a bun, and the child's hair is blonde. The overall atmosphere is serene and relaxing.

Therapeutic Massages

All our therapeutic massages are performed by qualified experts and physiotherapists.

THERAPEUTIC MASSAGE

Complete. The therapeutic massage is a tailored treatment offering relief and healing. Its purpose is to alleviate the tension in the body, reduce chronic pain, and increase flexibility.

FOOT REFLEXOLOGY

Exquisite. An oriental healing practised for 5000 years. Foot reflexology is a foot massage that promotes relaxation and vitality in the whole body. By stimulating key points through acupressure, the therapist reduces tension and helps blood circulation. A moment of sheer bliss.

LYMPHATIC DRAINAGE

Detoxifying. The lymphatic drainage is a manual draining massage, rhythmic and gentle, that revives blood circulation, purges toxins, and brings lightness to the body. A precious technique that works wonders against cellulite and water retention.

WATSU®

Introspective. The Watsu® treatment is carried in the pool's hot basin. This technique combines the benefits of the water and of Shiatsu to reach the ultimate relaxation, allowing the guest to release physical and psychological tension. The specialist guides the floating body while practising a delicate massage mixed with acupuncture. This unique practice allows the guest to fall into a state of complete relaxation, provoking an intense sensory experience and a feeling of serenity and renewed harmony.

Holistic Treatments

All our holistic treatments are performed by qualified experts.

CHI NEI TSANG

Detoxifying. Chi Nei Tsang is an ancestral technique used in Chinese medicine. This practice's goal is to release negative energy clustered in the abdomen. This type of therapy works on the internal organs on both a physical and spiritual level, to eliminate toxins, negative emotions, and excessive heat.

TIBETAN SINGING BOWLS THERAPY

Harmonising. This sound therapy uses vibrations to tune the organism on the right frequencies. Thanks to the very particular Tibetan bowls' sound, the body and the mind find themselves in a meditative state, freeing negative tension and finding a new balance.
